SCORING

PLAYER'S HANDICAP ALLOWANCE

For handicaps up to and including 18, a stroke is allowed on all holes with a card index value up to and including the player's handicap value. For handicaps in excess of 18 a stroke is allowed on all holes and an additional stroke on all holes where the card index value is equal to or less than the value by which the player's handicap exceeds 18.

PAR

The fixed score is determined by adding the players handicap allowance for the hole to the hole par value. The marker is required to make entries in the player and marker centre columns for each hole, showing losses, halves or wins, based on whether the players gross number of strokes for the hole has respectively exceeded, equalled or is under the hole's fixed score. The aggregates for losses and wins are recorded for each 9 and 18 holes and shown at the top right of the card.

STABLEFORD

As for stroke except that the marker shall be responsible for marking only the gross number of strokes where the player's net score earns one or more points. In addition, the reckoning of Stableford points awarded in relation to the player's fixed score at each hole shall be recorded in the third column for each hole as follows:

ONE over fixed score	1
Fixed Score	2
ONE under fixed score	3
TWO under fixed score	4
THREE under fixed score	5

The aggregates for Stableford points are recorded for each 9 and 18 holes and are shown on the right side of the card.

STROKE

The player's card is held by a marker. The marker shall record the gross score for each hole in the "player" column. The aggregate for each nine holes shall be recorded in the "in" and "out" places, and added to obtain an 18 hole total. The player's handicap is deducted and recorded as the net score. The results are marked at the top right of the card by the marker who the signs and dates the card. The card is then checked and signed by the player.

GOLF LINK

Two Wells Golf Club is on Golfink and all players can check their handicap by logging on to <http://www.golflink.com.au> and looking at Handicap History.
